

January 2024 VHF Contest N1KT

HARC President Dave KB1LTW operated in the January VHF contest, operating from Talcott, Mountain. Dave operated N1KT in the Single Operator - Portable category. He operated 10 watts on 2 meter and 440 putting FN31 'on the air'. Dave braved the January cold with temperatures in the teens and winds upwards of 15 mph. Dave said it was difficult to keep his heater lit to make hot chocolate due to the wind. But just look at that view. Bravo Dave! He will submit the score shortly.

How did he do?
We must wait for Dave to
tally his log and find out.
