To Confer, Converse and Otherwise Hob-Nob with Fellow Hams

We held another Saturday morning Hob Nob on Saturday August 16 2025. This was in conjunction with our Annual Official Meeting/Presentation and Awards Ceremony. Sam W1SMF brought in his 160 –10 folded dipole and a new tuner. After stringing the dipole between the north and south towers, Sam was able to tune it on 160m, giving us a new antenna for 160m.
